Tips & Hints

Join a new ball of yarn when there are approximately 6" of
yarn left from the old ball, also leaving a 6" tail of yarn with
the joined yarn. Weave these ends in neatly on the wrong side
of the fabric in a zig-zag pattern for a few inches, and then
trim off excess.

A **Yarn Needle** is a blunt-tipped needle with a large eye that
will accommodate many different sizes of yarn.
To thread yarn into the needle: fold the yarn end over the eye
section of the needle and squeeze it lightly between 2 fingers;
withdraw the needle from your fingers, push the open side of
the eye down over the squeezed yarn that is still between your
fingers – the yarn should slip easily into the eye.

ABBREVIATIONS: **beg** = beginning; **K** = knit; **mm** = millimeters; **P** = purl;
rep = repeat; **st(s)** = stitch (es).
